

WINDSCREEN

PRODUCT DETAILS

FOCUS ON DESIGN AND QUALITY

The windscreen is developed for installation on Airbus A320-family aircraft (A318, A319, A320 and A321) with classic and enhanced cabin interior. Its innovative attachment allows a 5 inch movement of the windscreen without any shipside modifications. The unique modern design features a special frameless viewing window meeting the direct view requirements by still providing sufficient privacy for the cabin crew.

Customize the design and choose from different optional attaching parts such as coat hooks, baby bassinet inserts, bumpers and literature pockets in different color and design options.

FEATURES

- Unique modern design including frameless window
- Durable lightweight materials (carbon and aluminum)
- Adjustable attachment
- Many customization options and attaching parts
