

## #NEWSLETTER

### July 2025

The first half of 2025 has been a dynamic and successful period for Skytec, marked by many projects, new partnerships, and ongoing development, especially of our IFE solution, skybox. We successfully implemented our SMS and extended our DOA. We were proud to participate in AIX 2025 in Hamburg, showcasing our latest innovations and strengthening connections across the aviation community. Here are some of this year's key achievements so far.

### SKYBOX – IFE WITHOUT LIMITS

Our skybox wireless inflight entertainment solution continues to set new standards as one of our flagship products, combining compact design with the performance of a full-scale IFE system. In recent months, we have strengthened skybox through valuable partnerships: In partnership with **CloudGuard**, we are developing the hardware infrastructure that powers our secure and high-performance platform.

PXcom Onboard Digital Services

flightpath 3D

Collaborating with **PXCom**, we are delivering digital in-flight services and content through the SkyVerse platform. skybox also features **FlightPath3D's** wireless, carry-on moving map solution designed for use on personal electronic devices, with flight tracking powered by a fully integrated ADS-B transceiver.

With dual-band Wi-Fi 6, up to 16 terabytes of storage, and capacity for 100 passengers, skybox is designed for both retrofit and new installations, integrating seamlessly with in-flight connectivity solutions. It continues to help operators create smarter, more engaging cabins, unlocking new opportunities for passenger satisfaction and ancillary revenue.

## AIX 2025: A FANTASTIC WEEK IN HAMBURG

Skytec was proud to participate in Aircraft Interiors Expo (AIX 2025) in Hamburg, a major event that brought together industry leaders, innovators, and partners from around the globe.

The core of our presence at AIX was the live showcase of Skybox, our next-generation inflight entertainment solution, which attracted strong interest from many clients eager to experience its advanced features firsthand.

Alongside Skybox, we presented a broad portfolio including our partitions and class dividers, soft furnishing items, and demonstrated our design and certification capabilities, highlighting the comprehensive solutions Skytec offers across aircraft interiors.

AIX also provided invaluable opportunities to meet with our valued customers, strengthen existing partnerships, and build numerous new connections that promise exciting future collaborations.

We were delighted to host our booth party, where we enjoyed a lively, fun atmosphere and the chance to engage more personally with industry friends and

colleagues, celebrating a successful event together. Thank you to everyone who stopped by and made AIX 2025 such a memorable and inspiring week!

## SAFETY MANAGEMENT SYSTEM

We are excited to announce that EASA has officially confirmed the successful implementation of our Safety Management System (SMS). This milestone showcases our commitment

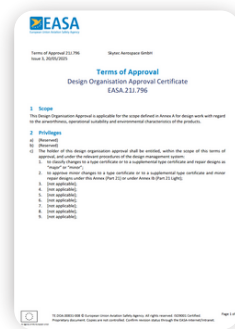

to safety and regulatory compliance. With the SMS in place, we proactively manage safety risks and ensure that we meet the highest standards in aviation.

## NEW TERMS OF APPROVAL: EXTENDED DOA SCOPE

We are proud to share that Skytec successfully received updated Terms of Approval for our DOA, now extended to include Cabin Crew OSD.

This important milestone strengthens our ability to provide comprehensive,

integrated solutions that meet the highest EASA standards.

## INSPIRING FUTURE TALENT AT HTL EISENSTADT

While AIX was underway, we proudly brought the Skytec spirit to the HTL Eisenstadt Firmeninfotag. Our team engaged with students through classroom presentations and exhibits, offering insights into aircraft interior innovation and career opportunities at Skytec. We're excited to help shape the next generation of aviation talent.

LinkedIn

As we head into the second half of 2025, Skytec will continue driving innovation and smart solutions for aircraft interiors. Follow us on LinkedIn for more updates; there's plenty more to come. Thank you for being part of our journey!
