## EASA Part 21 Electrical Design Engineer (m/w/x)

Does your heart beat for aviation, do you accept new challenges and would you like to realize your own ideas and visions as part of a young and emerging company? Then you are exactly the person we are looking for!

We are a leading certified EASA Part 21 Design and Production Organisation specialized in aircraft cabin interior modifications. Our company was founded by two business veterans with over 40 years of experience in the industry. We have established ourselves as experts in providing exceptional, tailor-made solutions for aircraft cabin interiors.

### What are we looking for

For cross-functional activities, we are looking for motivated employees (40 hours/week) for our company located in 2722 Weikersdorf am Steinfelde, Austria. We offer a broad range of new and exciting tasks in design and certification as well as extensive expert trainings in the relevant areas.

### Our Expectations

- Electronic or aeronautical education (HTL, technical college, university or equivalent)
- Knowledge in electrical / avionics design, engineering and certification
- Qualification as a Part 21 Design Engineer and /or CVE is an advantage
- Knowledge in 2D design of electrical diagrams is an advantage
- Self-initiative, motivated, self-organized and independent working
- Willingness for further trainings/education
- Fluent in spoken and written English
- Professional and confident appearance
- Experience in managing projects
- Class B driver's license

### Your Tasks

- Engineering activities related to design and certification projects in the aviation sector especially in Electric / Avionic modifications, In-Flight Entertainment Systems , In-Seat Power, Cabin System installations etc.
- Development of design & modification data (drawings, documents, reports etc.)
- Preparation of certification documents for compliance demonstration
- On-site installation support
- Managing customer projects

### What we offer

- Exciting, varied, and challenging tasks in a very experienced team
- Professional trainings in aviation-specific areas
- An open and respectful corporate culture characterized by team spirit and trusting cooperation
- The opportunity to contribute your own ideas
- A secure job with very good promotion prospects in a young, ambitious company
- An international customer environment and interesting business trips
- Option to work from home
- Last but not least - Team Events

## Are you interested?

We look forward to receiving your complete application documents (letter of motivation, curriculum vitae, certificates, etc.) with details of a possible starting date, a photo and your salary expectations to
